

Brain Freeze School Day Informational Sheet

What is a Brain Freeze School Day?

The WVDE has given every county the opportunity to develop a plan so that students can learn at home in exchange for making up to five snow days. The plan gives teacher the opportunity to refine their online presence for content delivery. The planned result is less loss in instructional time and increased ability to learn new content when school is back in session.

Delivery:

Digital content will be available for students on “Brain Freeze” days. Grades PreK thru 1st will use SeeSaw and Grades 2-12 will use TEAMS. Your child’s teacher(s) will supply directions ahead of time.

Preparation:

The county technology team has provided information to parents on how to access the content digitally.

When:

The “Brain Freeze” days will be called on days that the wind chill is dangerously cold and on days after we have had several inches of snow and we don’t have all areas cleaned out yet.

Content:

Instructions for accessing digital content will be provided to the parents in the first grading period report card.

Communications:

A school messenger phone call will be made to all parents and staff announcing the “Brain Freeze” day. Local radio and television stations will also announce along with county website and Facebook page.

Accountability:

Students will be held accountable for the learning that will take place on the “Brain Freeze” day. Teachers will communicate expectations.

Questions?

Contact your child’s teacher or school principal if you have concerns or questions.

County Contact: Darla Moyers
darla.moyers@k12.wv.us
304-329-0580 Ext. 250

Availability:

- All PCS employees will report on a 2 Hour Delay and assignments will be posted by 10:00AM.
- Teachers will be available for you to call or email from 10:00AM – 12:00PM and then from 1:00PM – 3:00PM.
- School lunch will be provided from 11:30-1:00 for families that have called the school and registered by 10AM.
- Students may report from 10AM-12PM to their local schools to work with their teachers or report to a computer lab to work.
- PHS students may report to their local school or PHS for computer usage or lunch.
