### MONDAY & TUESDAY MANDATORY CLASS SESSIONS

- All students should attend ALL classes online based on the condensed class schedule.
- Students can find links to the live session for each class on the course home page in Schoology.
- Teachers will be providing live instruction during this time, and will also review required assignments and activities for the week.

Example: If a student has math 1st period, at 8:55 am she should go to her math course in Schoology and click the link for "Live Session." This link will take her to a Teams meeting with her teacher and classmates. **This should be repeated for ALL classes periods 1-8 on Monday and Tuesday. This includes elective courses and rotations.**

### THURSDAY

All teachers will be live online to answer questions and to help students with their work. *This is optional, but highly encouraged.* Students should go to the class page for the teacher they want to meet with and click the "Live Session" link on the course page. Be sure to check the schedule to see when your teachers will be live online.

### WEDNESDAY & FRIDAY

Students should work on school work everyday. Wednesday and Friday are work days for students to complete assignments for each class. All teachers will be available to answer questions on Schoology, and you can also call the school to get help over the phone.

**Plan to accomplish all school work for 2 different classes each day of the week and use Fridays to finish up anything left over.**
